

INTRODUCING

SAP S/4HANA® Cloud, private edition

A key component of **RISE with SAP**

Traditional Flexibility and Scope + Cloud Value

Cloud Value

SAP S/4HANA Cloud, private edition

- Shift from CapEx to OpEx
- Reduce existing maintenance cost
- Utility level resilience
- Elastic investment that scales with your business

Innovation

- Full SAP S/4HANA Cloud scope, including LoB and industry processes, supporting 25 industries
- Code enhancements and **code modifications** supported
- **Expert configuration** via full IMG access
- **Operating expense** via subscription-based commercial model
- **Hyperscaler** infrastructure to scale up or down quickly

Simplicity

- **One SLA, one hand to shake**
- **Rapid conversion** of your existing ERP/ECC environments to a modern, cloud-based architecture
- **Prior ECC and partner solution investments safeguarded**
- **CapEx to OpEx** with a subscription-based commercial model
- **Transformation at your pace**
- **Partner add-ons** to enhance competitive differentiation

Responsiveness

Choice, flexibility, and control: Purpose-built for today's business environment.

SAP S/4HANA Cloud, private edition

20%

reduction in TCO including one-time migration costs.

Lower Total Cost of Ownership

87%

reduced infrastructure and staffing for lower cost and improved scaling.

Reduced Infrastructure and Staffing

2+ months

potential acceleration in deployment speed as operational lead times fall.

Faster Deployment

SAP S/4HANA Cloud: The right fit for every organization

ONE Data Model • ONE Semantic • ONE User Experience

As a Service

As a Product

SAP S/4HANA Cloud

Complete, modern, SaaS ERP

Our strategic choice for companies ready to embrace the future of ERP with a **new implementation and pre-defined processes**

SAP S/4HANA Cloud, private edition

Cloud value, traditional flexibility and full scope

Designed to provide innovation and cloud value while allowing customers to retain their investments by **converting their existing system(s)**

SAP S/4HANA

Total control and individualization

Innovative, intelligent ERP for customers that require **maximum control of their ERP system**, usually in their own data centers or with existing IaaS partnerships
